MOUNT CARMEL CENTRAL SCHOOL

"CARMEL UNVEILS"

Every Month ; A New Story

GANDHI JAYANTHI

Gandhi Jayanthi was observed on 1st October with a special prayer service. The service included readings from three holy scriptures, highlighting the importance of maintaining peace and harmony among one another. This was followed by a special Prayer for Peace.

The students then highlighted the simple life led by Mahatma Gandhi and his significant contribution to India's freedom struggle through the path of truth and non-violence.

Principal, Sr. Francina, addressed the students and encouraged them to lead lives of humility and simplicity. She emphasized the importance of being instruments of peace in our homes, schools and society, following the ideals and values upheld by Mahatma Gandhi.

The celebration served as a reminder to practise peace, love, humility and non-violence in our daily lives.

WORKSHOP ON ENTREPRENEURSHIP

To nurture entrepreneurial skills among high school students, the school, in collaboration with the Entrepreneurship Department of Mount Carmel University, organised an engaging workshop on entrepreneurship. During the session, professors from the department highlighted the importance of entrepreneurship and discussed the key qualities required to become a successful entrepreneur, including creativity, problem-solving, decision-making, and the ability to identify opportunities.

The second half of the workshop featured an interactive entrepreneurial activity in which students were encouraged to develop business ideas relevant to their age and experiences. The students were divided into three groups and provided with a structured form to develop and present their ideas. The form required them to identify a problem in their surroundings, propose a suitable solution, conceptualise a product based on the solution, determine its selling price, estimate the initial investment, and calculate the potential profit.

This hands-on activity provided students with valuable insights into the process of transforming an idea into a viable business venture. It encouraged teamwork, analytical thinking, creativity, financial awareness, and practical problem-solving. The ideas presented by the groups were evaluated by the professors, who selected the three best ideas. The members of the winning groups were awarded certificates and trophies in recognition of their efforts and innovative thinking. All participating students received participation certificates, acknowledging their enthusiasm and involvement in the activity.

Through the integration of artificial intelligence education and experiential entrepreneurship programmes, Mount Carmel Central School continues to create meaningful learning opportunities that prepare students for the future.

VISIT BY THE EDUCATION COMMISSION

The Education Commission of CSST conducts an annual visit to review and assess the overall functioning of the school. This year, Sr. Sheela Mary visited the school to observe and evaluate its various academic and administrative activities.

The day commenced with a special assembly, during which Sr. Sheela Mary was warmly welcomed by the school community. Following the assembly, Sister visited all the classrooms, beginning with Grade 10 and proceeding down to Kindergarten. During her visits, she reviewed the students' notebooks, observed the classroom environment and assessed the overall teaching-learning process. She also interacted with the students to gain insights into their learning experiences and classroom engagement.

Following the classroom observations, Sister reviewed the school's administrative documents and records. She subsequently met with the entire teaching fraternity and shared her observations, highlighting areas that required attention and improvement. She also provided valuable suggestions and practical guidance to help teachers address the shortcomings and further enhance the quality of teaching and learning.

Overall, the visit was a meaningful and enriching experience for the entire teaching fraternity. It provided teachers with an opportunity to reflect on their teaching practices, identify areas for improvement and recognize the necessary steps to be taken towards achieving better outcomes.
